COMPANY INTRODUCTION

Guangdong Ecocampor Vehicle Co., Ltd specialized in the camper trailers and caravan research, development, production and sale, utilizing high level technology, advanced equipment and modern factory automation line, with a workshop occupied more than 35 thousand square meters.

Our factory comprised of 3 large production lines, a showroom for product exhibition and office area, generates products covering a number of different types of camper trailers and caravan, utilizing high level technology, advanced equipment and modern factory automation line.

With professional skilled workers, excellent engineers, management personnel joint us and with us for more than 5 years. R&D teams and in-house design with established experience, allows our factory to quickly answer to demanding requirements and create from scratchwhole programs and collections with rigorous quality standards.

GUANGDONG ECOCAMPOR VEHICLE CO., LTD

We position ourselves as a China-based global camper trailer solution provider who helps clients develop and design differentiated products, with the aim of helping them win more market share. More than ten national patents under its belt, the team excels in assimilating global advanced technologies and techniques into its own R&D expertise.

TOY HAULER CARAVAN

YOUR CAMPING SOLUTIONS EXPERT

The Super Deluxe RV Off-Road Camper Trailer has a super large interior and ultra-modern design. Its off-road chassis and heavy-duty axle will give you a whole new level of camping experience.

12FT OFF ROAD CARAVAN

- For more than a decade now, we have been designing and building caravans that are safe, secure, robust, comfortable and convenient.
- Best things come in small packages. Complete comfort and reliability in every aspects, and multifunctional using ways turns a normal living interior into an effective and convenient toy garage on the road.

A Lifting Double Bed

Offers an extra garage space when it is not being used, and two sleeping capacities when lifting down.

B Sandwich Composite Panel

FRP + Aluminum Frame + XPS Foam Core+ FRP, with a high-density, stable and hydrophobic foam with high noise and thermal insulation.

D Folding Sofas

Flips up to the wall for more storage space, and flips down converting to bed feature with two additional sleeping capacities.

C Front Checker Plate Tool Box

Provides ample additional storage space.

E Pull-down Rear Ramp

An open back with ramp makes it easy to drive your motorbike or carry other large item in and out of the caravan.

F Independent Suspension

Keep a smoother and more stable ride whether on the highway or on rough terrain.

G Garage Storage Space

Could store your motorbike and bicycle for your favorite outdoor activities when the garage is free.

H Adjustable Rear Screen

Leave the door open, the screen down to keep out bugs, shade the caravan interior and allow ventilation. Suddenly you have a comfortable room that gives more of the outdoor feeling.

I Folding Extended Table

Put the removable table back in place to get a roomy dining area.

J Ram Door Patio Setup

The garage can be accessed through the ramp door, which converts to a patio as an option.

14.6FT OFF ROAD CARAVAN

- For more than a decade now, we have been designing and building caravans that are safe, secure, robust, comfortable and convenient.
- Best things come in small packages. Complete comfort and reliability in every aspects, and multifunctional using ways turns a normal living interior into an effective and convenient toy garage on the road.

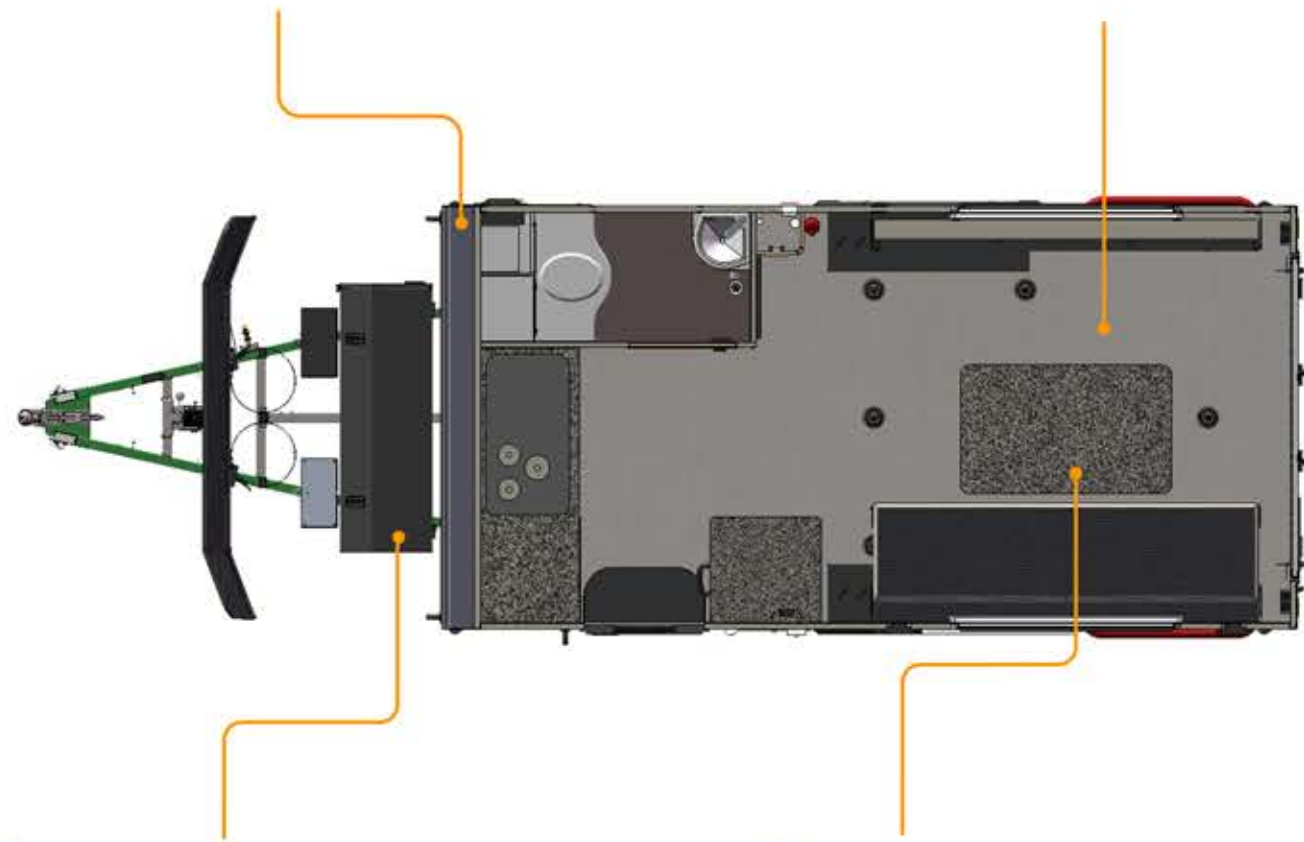

A Front Checker Plate Tool Box

Our heavy-duty Front Checker Plate Tool Box is the perfect solution for storing the extra gear that you want easily accessible and out of the camper.

B First Class Interior

The RV boasts a variety of premium features such as stone look bench tops, leather upholstery, 12v fan and USB points. You also get a Waeco 136Ltr fridge/freezer, range hood, 24" smart TV and much more. Step inside and be impressed by another level of craftsmanship with this 14.6ft toy hauler.

C Sandwich Composite Panel

FRP+A-frame+XPS Foam Core+FRP bodyshell panels are more resistant to the elements, enhancing their longevity.

D Dinette

It provides a spot for snacks or dinner, and easily converts to comfortable sleep space.

E Standard Flip-up Entry Step

Solid footing, coming and going. Handy friction hinge and screenshot auto-door-close feature.

F Standard Flip-up Entry Step

Solid footing, coming and going. Handy friction hinge and screenshot auto-door-close feature.

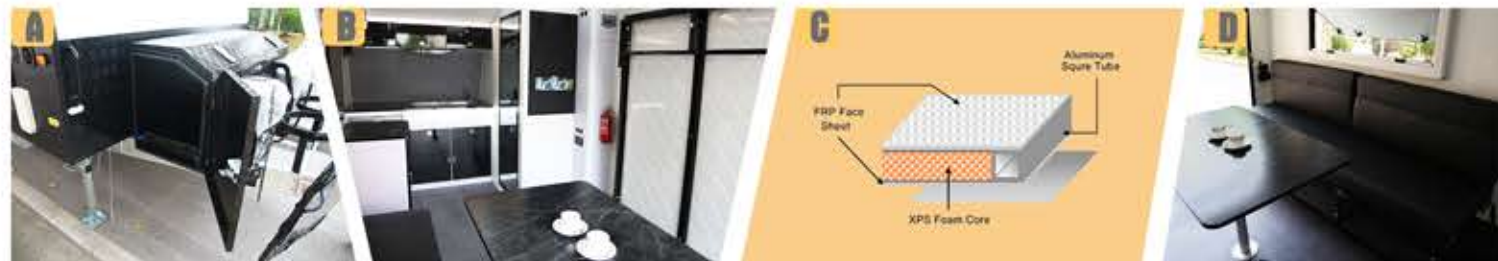

G Suspension and Structure

The caravan's frame is covered each side with premium 3mm timber sheet securely bonded to provide a wall 'sandwich' of great strength without a weight penalty. To ensure that no movement becomes possible in the frame, timbers are bonded and screwed together. The external aluminium cladding is also bonded to the wall sheet to provide even more strength.

H Off-road Tyres

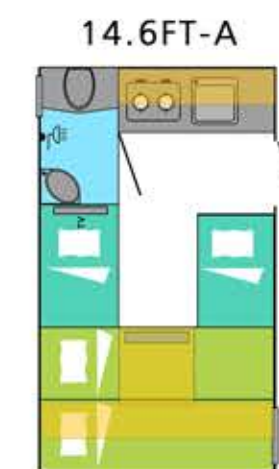

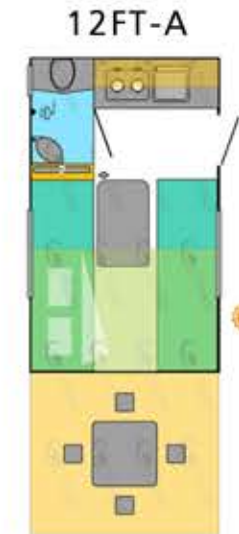

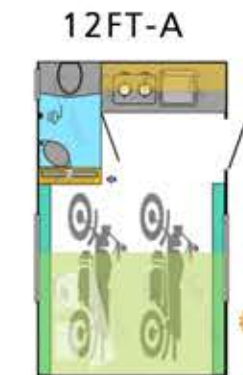

Larger Off-Road Tires replace the standard street tires and give this RV an aggressive overall appearance.

ON ROAD CARAVAN

YOUR CAMPING SOLUTIONS EXPERT

The Super Deluxe RV Off-Road Camper Trailer has a super large interior and ultra-modern design. Its off-road chassis and heavy-duty axle will give you a whole new level of camping experience.

16FT ON ROAD CARAVAN

- Every caravan is built with rigid quality control that is inherent in our manufacturing process, from the base frame through to the final touches. We offer a wide variety of layouts that allow customers to 'custom build' with the assistance of our professional craftsmen. Whether it's aesthetics or on-road/off-road features, our team will ensure your van is practical, stable and solid. Our aim is to provide you with a caravan that you will be proud of.

A Full-equipped kitchen

The fully equipped kitchen with premium laminate bench tops and comfort lounge ensure five-star luxury in the roughest of places

A Durable Floor construction

Plastic honey comb+PVC floor glue, our hard floor range providing excellent comfort and quality.

A Front Checker Plate Tool Box

Provides ample additional storage space.

A Front Checker Plate Tool Box

Provides ample additional storage space.

A Front Checker Plate Tool Box

Provides ample additional storage space.

A Composite sandwich panel wall

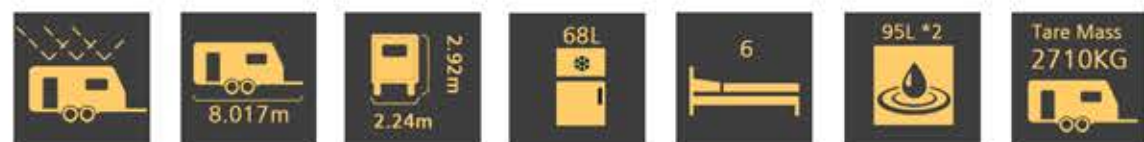

It constructed with strong, smooth fiberglass foam sandwich panels providing a sleek, modern appearance and creating one of the toughest, safest and best insulated caravan wall.

A Front Checker Plate Tool Box

Provides ample additional storage space.

A Front Checker Plate Tool Box

Provides ample additional storage space.

19FT ON ROAD CARAVAN

- Every caravan is built with rigid quality control that is inherent in our manufacturing process, from the base frame through to the final touches. We offer a wide variety of layouts that allow customers to 'custom build' with the assistance of our professional craftsmen. Whether it's aesthetics or on-road/off-road features, our team will ensure your van is practical, stable and solid. Our aim is to provide you with a caravan that you will be proud of.

A Full-equipped Kitchen

The well-planned design features four burners stoves, a Thetford 152L refrigerator, microwave oven, kitchen ventilator, sink and a convenient dining area for extra prep space. It utilizes a fairly small space to create a kitchen that's as functional as it is stunning.

B Built-in Pulsator Washer Machine

With a space-saving design, this Camec Compact RV pulsator washing machine will be smaller, lighter, and energy-efficient than the same type of drum washing machine. It is convenient to move but doesn't compromise vibration of dehydration and the noise.

C Durable & Environmental Floor Construction

Plastic honey comb&PVC floor is waterproof, making it ideal for sections in your RV ,which comes in contact with a lot of rub, moisture or water. The formaldehyde-free PVC floor ensures the environmental protection quality in the car and creates a healthy leisure space.

D Slide Out Space

With an interior expanded space of 2328*1230mm, this area features a cotton fabric u-shaped sofa. It can be transferred into a double bed with the assistance of electric lift table in the middle, which creates more interior living space.

A Comfortable Suite

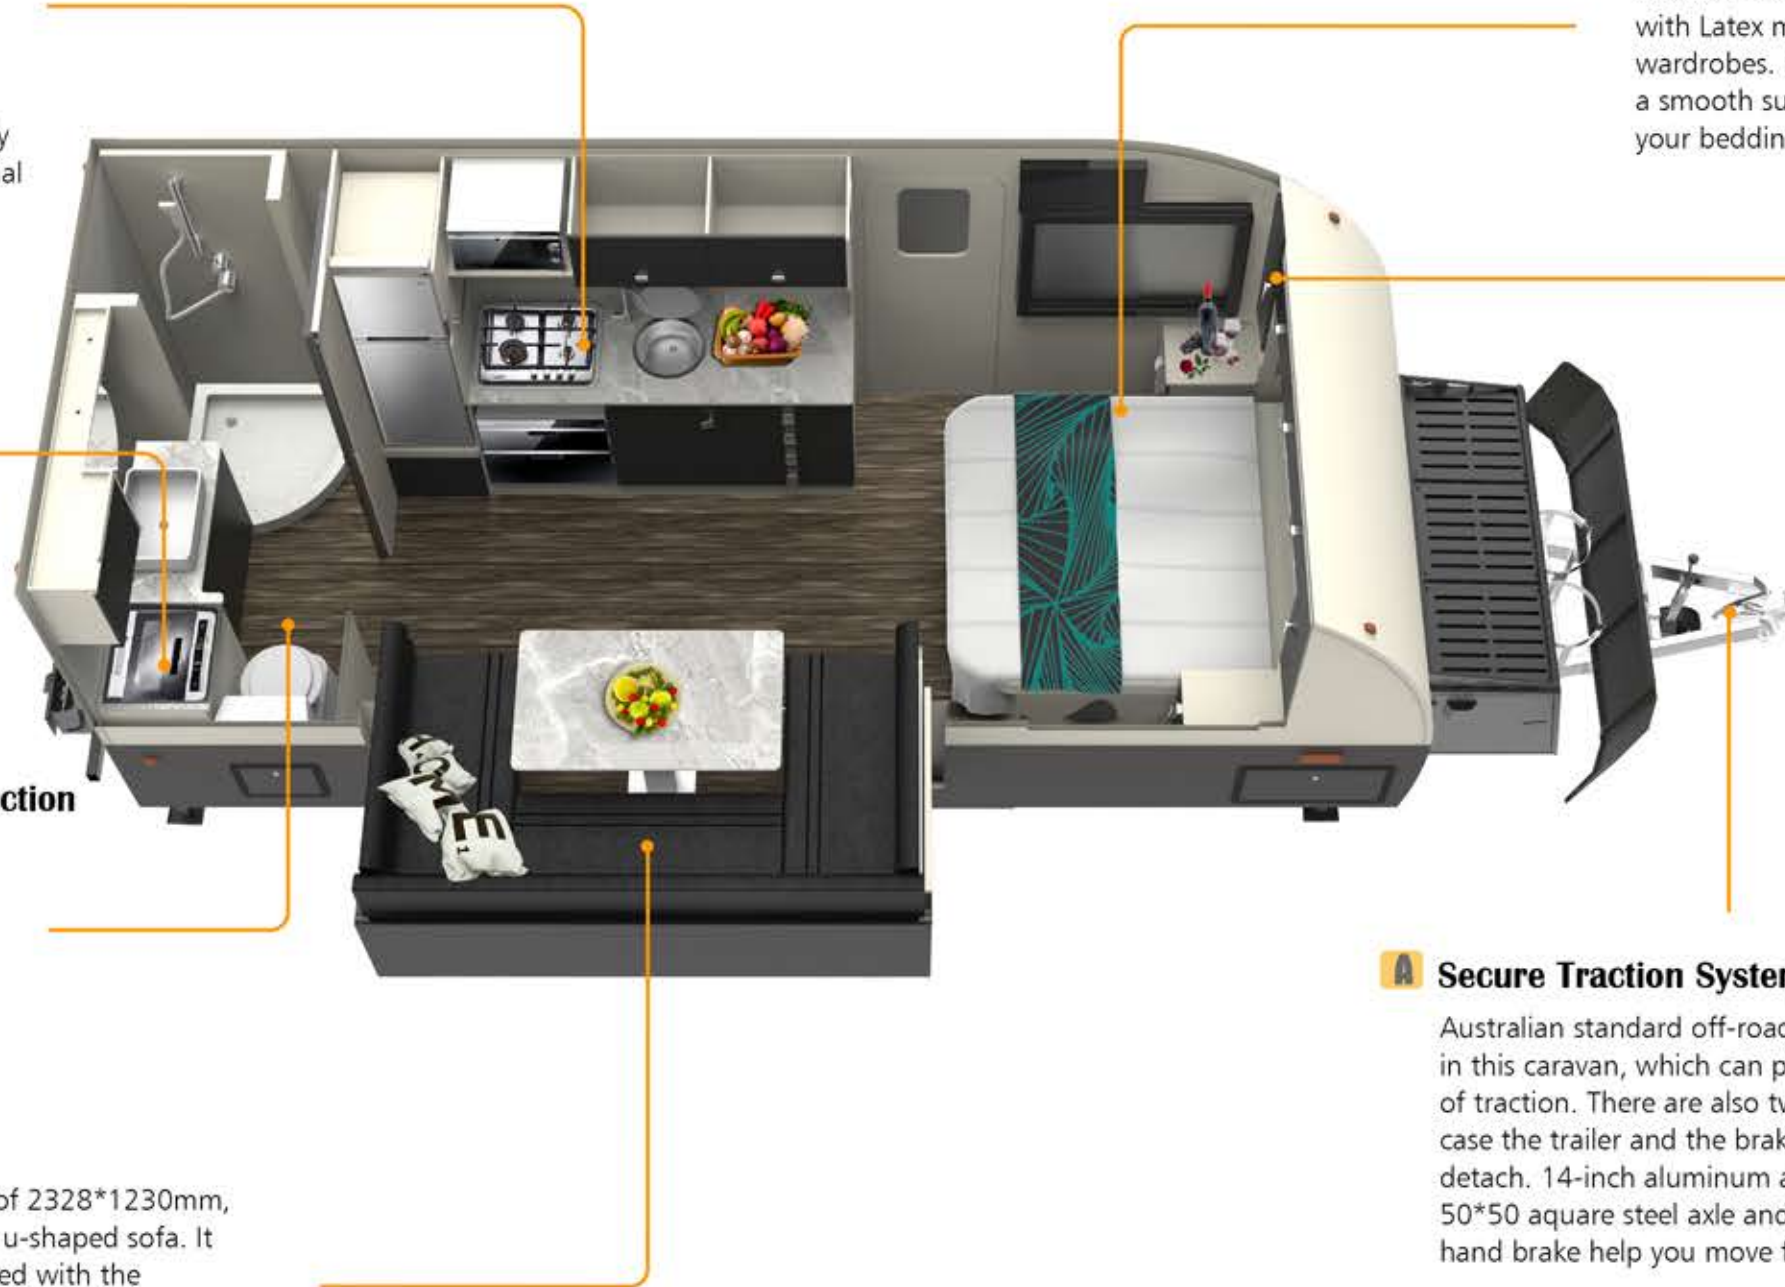

Bedroom features a 2000*1500mm queen bed with Latex mattress, 2 night stands and 2 built-in wardrobes. It provides a plenty of storage space and a smooth surface, which will always complement your bedding and bedroom scheme.

A Composite sandwich panel wall

It constructed with strong, smooth fiberglass foam sandwich panels providing a sleek, modern appearance and creating one of the toughest, safest and best insulated caravan wall.

A Secure Traction System

Australian standard off-road connector is applied in this caravan, which can provide up to 3500KG of traction. There are also two safety chains in case the trailer and the brake car accidentally detach. 14-inch aluminum alloy brake hub, 50*50 square steel axle and 10-inch electric& hand brake help you move freely.

22FT ON ROAD CARAVAN

- Every caravan is built with rigid quality control that is inherent in our manufacturing process, from the base frame through to the final touches. We offer a wide variety of layouts that allow customers to 'custom build' with the assistance of our professional craftsmen.
